TUTUP GANGKIR

WITH LOVE,

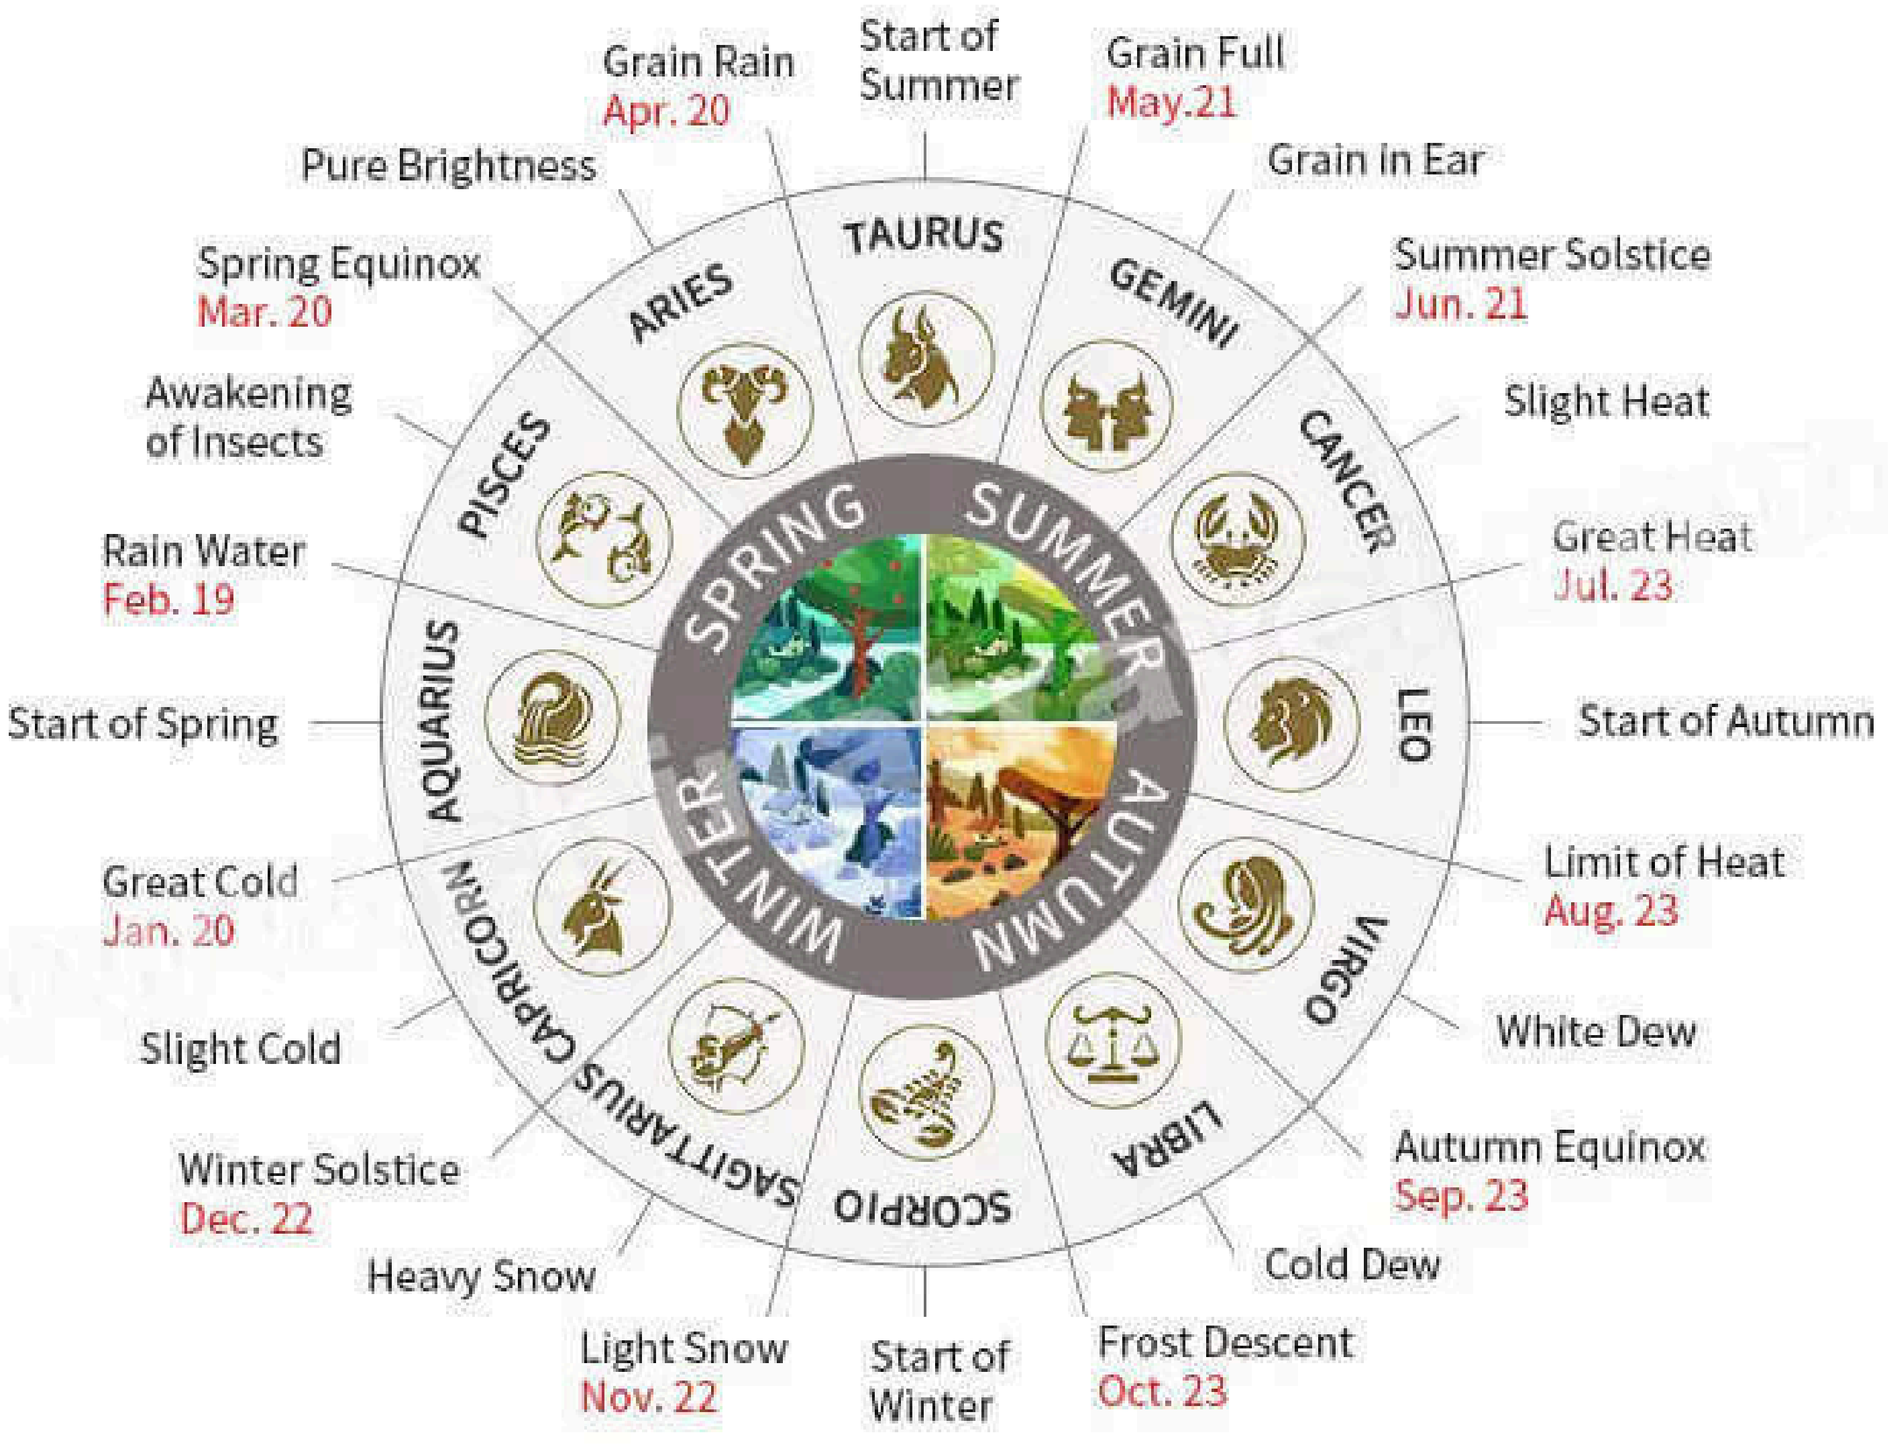

Don’t you ever know if we realize, many people don’t consider drinking a healthy tea but make it grab-and-go ease, because everyone loves quick drinks to accompany them, right? So, our product will let the statement out. To make a quick-healthy-tea and serve our customers right. To combine all of the solar-term herbal blends for organ health. Imagine, your day will be lighter and healthier than ever after you discover that your body needs attention. Linked the cancer prevention and metabolism boosts.

What’s Our Business About

24 Solar Terms

Problem Identification

Tea brand lie about detox tea.

Used bleached for teabags.

So much sugar.

Have a lot of plastic packaging.

Teabags contains microplastic.

Proposed Solution

Because our product is healthy tea, we got inspiration from Chinese tea but made it simpler like teabags but make it microplastic-free and toxic-free because we didn’t use common teabags!

As far as we know about senna leaf, we decided not to use it in our tea so people wouldn’t use it incorrectly, and it would be safe for everyone.

And we also change the sugar to sorghum sugar and honey for the alternative.

Who Is Our Customer?

Healthy Lifestyle

Our Services

We use existing technologies and we combine them, like using *Tally.so* and *heyzine.com*

It makes our tea shop doesn't need many people and can be faster-paced for customers who want to order our tea!

Technology in Our Business

WITH LOVE,

Value & Benefits

WITH LOVE,

So, after we look at our concept, we consider that our value and benefits have been taken from our very first concept. It’s for health. We make tea for a healthy lifestyle. And, then, we also create different tea bags than usual. Our tea bag is more like the one on the right side, with tea leaves inside. Our tea bag is not one of those brewed teas, it’s more like... Packaging. For example, a Chinese tea that still includes tea leaves and we’ll add some flowers and fruits for the aesthetic look and we will make other delicious tastes that can still be enjoyed with pleasure. Not because being forced to taste the bitter ones.

Key Performance Influence

Our vision is to achieve an average service time of less than 3 minutes, operational efficiency, sell more tea bags, revenue growth, social media engagement, and create our own website to make it easier for our customers.

WITH LOVE,

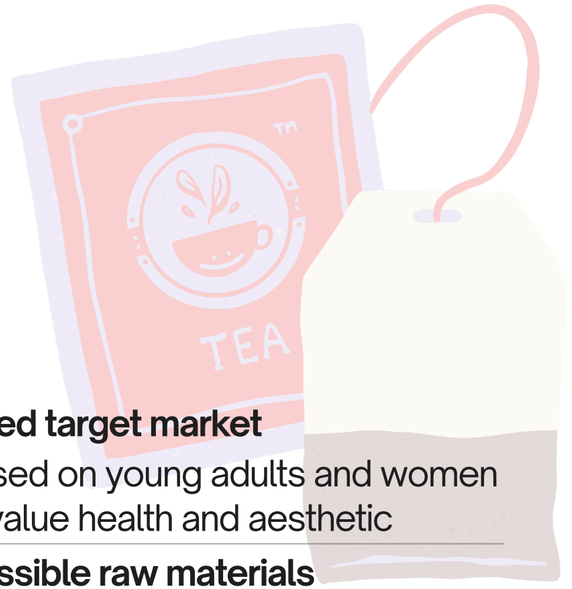

Evidence & Feasebility

Rising interest in healthy beverages
Consumer are shifting from high-sugar drinks to healthier options like tea

Expanding modern tea market
The growth of tea brands indicates stable market demand

Clear product differentiation
